

# THE THIRD SIEGE OF OLD WARDOUR CASTLE!

MONDAY MAY 25th 1998

St. Urban's Day ('Bank Holiday Monday')

Join the Poetry Field Club in its assault on Old Wardour Castle (Wilts.). This stronghold of the aristocracy, in its 'catholic' aspect, and of the bourgeoisie, in its 'protestant' aspect, requires only a *nonist* perspective to lever it out the ideal realm - where it is 'heritage' - and into the placeless realm, where it is the cradle of Proletarian Revolution. Designed by Neo-Platonists, it is reputed to overlay the tomb of Christ.

WARDOUR CASTLE.

The Christ was concealed below Ansty Hill after his body was smuggled out of Rennes-le-Chateau (France) by Knights Templar fleeing persecution in 1307. Recognizing Ansty Hill as 'false' they concealed the 'son of God' there, the site being later capped by the castle. 'The gateway is surmounted by an inscription referring to the two Arundels of the Great Rebellion; above is a niche containing a bust of Christ and the words "SUB NOMINE TUO STET GENUS ET DOMUS."' Agents of the 'Church of Rome' have been tunnelling beneath Old Wardour for some years, seeking to destroy the corpse, which proves the doctrines of the 'Popes' to be as false as the spectacular ideology of Luther.
